**A TRIP THROUGH TIME**  
Did you remember to set your clocks back to standard time?  
• 1509 BC Egyptians First Used the Sundial.  
• 400 BC Greeks develop the water clock.  
• 980 Alfred the Great measures time with candles.  
• 1080 Wang Dayu's Mark time in china with incense.  
• 1609 Mechanical mains spring clocks built in Europe.  
• 1583 First Pendulum use for time noted by Galileo.  
• 1840 US Naval Observatory uses a time ball for viewers may see their clocks.  
• 1884 Greenwich mean time established and becomes basis for time in the world.  
• 1907 Start of Radio time signals.  
• 1928 Bell Labs builds first Quartz Clock.  
• 1919 First Atomic Clock.  
• 1967 Time defined by vibrations of Cesium atoms and not astronomical bodies.  
• Present, over one half billion watches sold each year.  
• PS The earliest known reference to the idea of daylight saving time comes from a purely whimsical 1784 essay by Benjamin Franklin.
